

2019 Business Energy Efficiency Grant Program Application

Please review, complete, sign and submit for consideration ALL pages of this application. The Minnesota Chamber of Commerce reserves the right to revoke the grant award if the customer or contractor violates program rules and procedures. The Minnesota Chamber of Commerce is not liable for grants promised to customers as a result of a contractor misrepresenting this grant program.

Summary

The Business Energy Efficiency Grant Program (BEEGP) is a grant program of the Minnesota Chamber of Commerce. The purpose of the BEEGP grant program is to motivate business owners to complete projects that would otherwise not have been completed without the aid of the BEEGP. Applications for which a verbal or written commitment has been made to complete the project will not be considered for this grant program. All grant applications will be reviewed on a case by case basis and will be contingent on available funds, Energy Smart evaluation of the specific project and BEEGP administrator final approval.

Eligible Businesses and Projects

Eligible projects include:

- Energy projects which qualify for an Xcel Energy or CenterPoint Energy prescriptive or pre-approved custom rebate

Applicants must meet one or more of the following criteria:

- Is a member of the Minnesota Chamber of Commerce
- Is an Xcel Energy or CenterPoint Energy customer

Grant Details

Up to \$2,500 may be awarded (\$3,500 for MCC members) for pre-approved energy efficiency projects. The funds can be used for multiple projects at one approved utility service address until maximum grant dollars have been reached (\$2,500 or \$3,500). A separate grant application must be completed for each project. Funding may be accessed at any time during the grant year, but projects must be completed and rebated in the same calendar year as the approved grant application.

Grant funding is awarded *after* the project is completed, confirmed by Energy Smart, and the applicant verifies that the utility rebate has been received. All grant checks will be made out and sent to the applicant unless other arrangements are made with the BEEGP administrator.

- **For Electric Project Applicants:** The BEEGP grant may finance 20% of project after the energy rebate has been applied.
- **For Natural Gas Project Applicants:** The BEEGP grant may finance 20% of project after the energy rebate has been applied.

2019

Business Energy Efficiency Grant Program Application

For energy projects:

- A completed and signed utility data release form must be provided to Energy Smart staff prior to application submission.
- Energy upgrade projects must be completed and have final paid invoice submitted to Energy Smart staff AND utility representative within 120 days after the grant application is approved.
- The final grant amount will be based on the final invoice from the contractor.
